

Model MTC-020 Temperature Chamber

Specifications

Approximately 1 ft³ of workable area and the ability to be stacked in a 19" rack mount cabinet (optional). Chambers are available in a heat/cool configuration with features and specifications as follows:

Features include:

Addressable Chamber Controllers: allows integration of up to 32 chambers into a single test system.

Automatic Temperature Control: allows chamber temperature to be set via touchscreen controller or directly from Maccor's test system software as a test step in the test procedure.

Compact Design: with a height of only 12.25" (7U High), stacking chambers on a table or installation into a standard 19" rack cabinet

Cooling\Heating Power	250 Watts (850 BTU/Hour)
Temperature Range: Heat/Cool	-20°C to 100°C
Temperature Uniformity	±0.8°C
Temperature Accuracy	±0.8°C
AC Input	120VAC/1 Φ/15 Amps
Unit Dimensions	18.5" Wide x 30" Deep x 12.25" High
Internal Dimensions	13" Wide x 13.5" Deep x 9" High
